

## BEN CATING LEED AP

SENIOR CONSULTANT - VP

I lead the systems that create engagement in venues where thousands gather.

My role is to provide thought leadership, design and project management for venue technology. My project portfolio includes experience with NHL/NBA arenas, MLB/MLS/NFL stadia and NCAA sports facilities. I understand the tension between the needs of a variety of events and help owners and design teams resolve the conflicts.

**Children's Mercy Park**  
Kansas City, KS USA

**CHI Health Center Arena**
