

COURTNEY SCHOEDEL LEED AP, INCE-USA

SENIOR CONSULTANT

One of my favorite parts of being part of the team at Idibri is that auditorium design and acoustic strategy is holistic and can be done in real time with the client.

I trained in architecture and acoustics. Over the years, those skills have merged into a blended career in theatre design and acoustics. I love working with design teams to produce creative solutions that result in unique spaces with the ability to increase people in a shared experience.

EXPERIENCE

- Skilled theatre designer able to develop solutions rapidly in a collaborative environment.
- Known for “architecture-friendly” acoustics.
- Member of ASA, ASHRAE and INCE.

EDUCATION

M.Arch. and MS in Building Sciences with a concentration in Architectural Acoustics, Rensselaer Polytechnic Institute

BD in Architecture, University of Florida
