

## JASON MCKELVEY LEED AP

SENIOR CONSULTANT

I am passionate about design that focuses on the experience of the end-user.

I enjoy designing video production control rooms and systems that not only meet the goals of the venue but that also support the teams that use them. There is an art to matching technology, budgets and functionality. The best part of this job is creating spaces that help production teams to do more than they were able to before.

**Circuit of the Americas**  
Austin, TX USA

**The Crossing**  
Chesterfield, MO USA

**Epic, Deep Space**  
Verona, WI USA
