

RICK LAVIN LEED AP

SENIOR DESIGNER

I design the communications systems for buildings.

The thing about my work is that the systems are converging. All of the disciplines that were designed separately when I began my career have now converged as part of a structured network. That evolution allows me to design holistically for my clients—which results in well-integrated solutions that support the building as a whole.

Amon G. Carter Stadium
Fort Worth, TX USA

CenturyLink Headquarters
Monroe, LA USA

Circuit of the Americas
Austin, TX USA

Epic, Deep Space
Verona, WI USA

Fellowship Bible Church
Little Rock, AR USA

First Baptist Dallas
Dallas, TX USA

Gateway Church
Southlake, TX USA

McLane Stadium
Waco, TX USA

Meyer-Martin Athletic Complex
Fort Worth, TX USA

Oman Convention & Exhibition Center
Muscat, Oman

San Diego County Operations Center
San Diego, CA USA

TRT Holdings Headquarters
Dallas, TX USA

U.S. Bank Stadium
Minneapolis, MN USA

Weir SPM Headquarters
Fort Worth, TX USA

EXPERIENCE

- Depth of experience in technology to support high-capacity venues in a variety of markets.
- Specialist in converging technologies for AV, security, and data.
- Background with a national systems contractor results in high practical design.

EDUCATION

BS in Engineering Physics
State University of New York at Fredonia

JOINED

2002
