## CLIENT

County of San Diego

## CONTACT

Gabriel Cervantes, Project Manager  
SmithGroup JJR  
1.213.228.6900

Processing forensic evidence for over 30 law enforcement and criminal justice agencies.

The 156,000 square-foot County of San Diego Crime Lab is five levels serving 200 employees, including forensic lab technicians, property and evidence storage, and detectives for homicide, family protection, cyber crimes, and sexual assault. The Crime Lab provides specialized analysis in controlled substance and alcohol, DNA and trace evidence (including arson, explosives, fibers and paint), latent fingerprint development and comparison, questioned documents (including handwriting comparison), firearms and tool marks.

Idibri's designed the AV and Acoustics for the project including sound isolation for an indoor firing range.
