Acoustics and technology design to support voting operations in San Diego County.

The San Diego Registrar of Voters works to ensure widespread, ongoing opportunities to register and vote in fair and accurate elections for all federal, state, and local offices and measures.

The 118,500 sf Registrar of Voters Headquarters includes Registrar of Voters staff offices, election ballot processing capabilities, warehouse production space and a public art installation. Idibri provided acoustic consulting and technology design for the new headquarters building.
