The backbone of data services and communications systems for law enforcement and public service agencies throughout San Diego County.

The Sheriff Technology & Information Center (STIC) at the County Operations Center in Kearny Mesa, San Diego is a 45,000 sf facility that houses the Sheriff's Data Services and Wireless Services Divisions.

Idibri's scope included AV systems design for the Training Room / Media Center, Conference Rooms, Labs, Private Offices, as well as sound masking for the Open Office areas. The Media Center has broadcast cabling to exterior pedestals for news vans to connect their broadcast equipment. The Media Center opened just in time to be used for daily COVID-19 press briefings by county officials.
